**New 8-hour Supervision Course for Behavior Analysts  
Based on the BACB Curriculum Outline 2.0**

**Melbourne, FL:** [ABA Technologies, Inc.](#), in partnership with [Florida Institute of Technology](#), announces the launch of an 8-hour training program to prepare behavior analysts to become supervisors.

The [21st Century Supervision Course Series](#) is based on the [BACB's Supervisor Training Curriculum Outline 2.0](#), released in December 2018. Per the BACB, this new curriculum is *“revised, enhanced, and reorganized to emphasize content relevant to the ongoing supervision of RBTs and BCaBAs, and the supervision of trainees.”* All incoming supervisors are required to complete an updated training course beginning November 2019.

Seven seasoned behavior analysts teach this course. Topics include clinical behavior analysis, organizational behavior management, and instructional design. All are essential components for behavior analysts to grow as supervisors.

The seven-part series includes the following:

1. **The Purpose of Supervision**—[Dr. Jose Martinez-Diaz](#) and [Dr. Allison King](#) share how ethical supervision affects the broader field of behavior analysis and the potentially adverse outcomes of ineffective supervision.
2. **Important Features of Supervision**—[Corey Robertson](#) teaches the essential characteristics of a supervision process, and includes how to deal with potential legal issues, supervisory requirements, and special issues for specific clinical populations.

3. **Holding Effective Meetings**—[Shauna Costello](#) prepares participants to use tools and templates for holding productive meetings that can enhance the supervisor-supervisee relationship.
4. **Behavior Skills Training for Supervisors**—[Dr. Kristin Myers-Kemp](#) demonstrates the correct application of behavioral skills training (BST) using in-person and video modeling, including monitoring techniques during the rehearsal stage.
5. **Delivering Performance Feedback**—[Kelly Therrien](#) applies the science of behavior to one’s communication skills as a supervisor and shares tools for delivering performance feedback to trainees, supervisees, and other staff members.
6. **Evaluating the Effects of Supervision**—[Thomas Freeman](#) covers the often-neglected aspects of continuous evaluation, which help troubleshoot performance problems during training.
7. **Ongoing Professional Development**—[Shauna Costello](#) offers ways to use ongoing professional development to remain current with best practices and emerging research.

For a full description of the course content and objectives, read ABA Technologies’ recent blog, “[21<sup>st</sup> Century Supervision Skills for Behavior Analysts](#).” Take the course: [21st Century Supervision Course](#)

**About ABA Tech:** We are experts in Applied Behavior Analysis, curriculum development and instructional technology, organizational behavior management, and professional development and dissemination of behavior analysis applications. We are pioneers in developing and delivering online professional education and continuing education for practitioners of behavior analysis. Unlike other similar companies, we introduce a unique technology and experience that results in high engagement, value, and advancements for our customers’ careers. With decades of national and international experience, we offer value, passion, and partnership that is one of a kind.
